

## **Portable Oven Operating Instructions**

Preparation: Install the oven in a level position. Connect the cord to a standard 110 outlet. Keep in mind that the outside of the unit will be very hot.

1. To warm up the unit, turn the dial to 7.
2. Once the oven is pre-heated, place the product in the oven and turn the dial to 5. If the product is not warm enough or not cooked thoroughly, repeat the cooking process.
3. Use tongs to handle product
4. **DO NOT USE ALUMINUM FOIL IN UNIT. DO NOT STACK OVER ANY OTHER APPLIANCE.**
